

## NEWS RELEASE

# CareDx Hosts Second Annual MEET Digital Health User Conference to Showcase Latest Innovations to Enhance Transplant Patient Care

2023-08-17

Conference Underscores CareDx's Commitment to Improving Entire Transplant Patient Journey

BRISBANE, Calif.--(BUSINESS WIRE)-- CareDx, Inc. (Nasdaq: CDNA) – The Transplant Company™ focused on the discovery, development, and commercialization of clinically differentiated, high-value healthcare solutions for transplant patients and caregivers – today announced its second annual digital health user conference, the Management Expert Exchange in Transplantation (MEET) Conference, taking place August 27-29 in Dallas, Texas.

Transplant administrators, quality managers, transplant clinicians, and organ procurement organization (OPO) professionals will come together for this one-of-a-kind event. At the conference, participants will share best practices, discuss emerging trends, and learn how to leverage the latest digital health innovations to improve transplant operations, quality improvement, patient management, and health equity.

"We look forward to hosting our yearly digital health conference, where thought leaders gather to share innovations as we collectively navigate the intricate tapestry of patient touchpoints in the transplant journey," said Kashif Rathore, Chief of Patient and Digital Solutions. "We're pleased to have MediGO join us as part of CareDx. This recent acquisition expands our offerings for OPOs, further deepening our moat, while also bolstering our pre-transplant solutions."

Led by an impressive set of speakers and panelists, this year's conference will feature timely topics, peer to peer discussions, and presentations that include the following topics:

- Listening and engaging patients to create meaningful change
- Collaborating with community of referring providers, dialysis units, and others to improve patient outcomes
- Building successful strategic plans that will get your C-suite to buy-in
- Continuous innovation in transplantation

MEET's Keynote Presentation, "The First Million Transplant Patients—How Did We Get There and Where Do We Go from Here?" will be delivered by David Mulligan, MD, FACS, FAST, FAASLD, Former UNOS President, and Professor of Surgery and Division Chair, Transplantation Surgery and Immunology, Yale School of Medicine.

"I'm really excited for Dr. Mulligan's Keynote Presentation. It's great to have a speaker of his caliber and to see the MEET Conference agenda tackle the challenges of helping healthcare providers manage the ever growing numbers of transplants, improving access, and further engaging transplant patients in their own care," shared Kevin Cmundt, former CEO of the Gift of Hope Organ and Tissue Donor Network, Board Member of the Illinois Transplant Fund, and Faculty member for the End Stage Renal Disease Treatment Choices Learning Collaborative.

CareDx's digital health portfolio includes the AlloCare® mobile health app which is fully integrated with AlloHome® remote patient monitoring and TxAccess® to help track biometrics and better manage the transplant waitlist process, medication adherence, and ongoing education. These solutions along with MedActionPlan® PRO streamline communications, facilitate earlier interventions, and empower patients to take greater control of their care. The Transplant Pharmacy provides individualized transplant pharmacy services, and Ottr® and TransChart® help centers manage transplant workflows to achieve clinical efficiencies, and through the use of XynQAPI® improvements in quality of care and patient outcomes. CareDx also offers mTilda, a leading lab information management software (LIMS) for human leukocyte antigen (HLA) laboratories, and MediGO's digital platform for organ transplant supply chain and logistics management.
